COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulæ, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great, blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet *does cure* all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to And finally terminate in consumption.

Take the "Golden Medical Discovery" *in time* and it is not likely to disappoint you if only you give it a *thorough* and *fair* trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

## LABOR DAY.

Labor Day was generally observed throughout the county yesterday. There were disorders in some places. A Labor Day riot that promised to end in a tragedy, had it not been for the bravery of two young women employed in the telephone exchange, occurred in Steubenville, Ohio, yesterday afternoon. The victime of the crowd's rage were Joseph Harbison, who received a fractured skull, and John Hatton, who was cut and bruised. While engaged in shielding the men, Miss Mary Magec and Eula Rooke received cuts and bruises about the head and body and are in a serious condition. Harbison and Hatton went to Steubenville from St. Louis to work in a mine where a stiike is in progress. Yesterday as they left the telephone office they were set upon by a crowd and were being badly beaten, when the two girls rushed into the thick of the trouble and frantically pushing and shoving their way through about fifty men, reached the two victims, to whom the young women were strangers. The girls threw themselves on the prostrate men, protecting their heads, and receiving on their own bodies the kicks and blows of the mob. One of the men, who was wielding a piece of iron, struck Miss Magee on the head. Another piece of iron almost broke Miss Rooke's arm. In a moment of let-up in the assault policemen reached the scene and rescued Harbison and Patton. Only one arrest was made. Harbison was removed to the mayor's office and later to Gill Hospital, where it was found that his skull was fractured.

The labor union parade in San Francisco yesterday resulted in the shooting of two men by employes of the United Railroads at noon. The car men were attacked by the paraders and, in self-defense, opened fire. The trouble started at Ferry street, where, it is stated, a Sutter street car broke through the line of parade. A mob of labor union men followed the car and at the junction of Sutter street the members atacked the car. The motorman seeing that his life was in danger, opened fire and wounded one of his assailants in the leg. A block farther up an inspector was attacked by the mob. He was suddenly struck in the face and ran from his assailants. They followed him to the corner of Sutter and Montgomery streets, where they overtook him. He drew a pistol and aimed at a burly labor union man who carried bricks in his hand. The inspector opened fire and shot the man through the groin. Six shots were fired. A riot call was sent in to the police and fire departments and a force of police and firemen was soon on the scene. The men who did the shooting were arrested, but several rioters who were seized by the police were released.

New York had two parades yesterday one under the direction of the Central Federated Union, and the other in charge of the Building Trades organizations. A committee of the horseshoers caused much delay in the starting of the Federated Union parade by examining the feet of all the horses in line to determine whether or not they were union-made shoes. All horses whose shoes did not bear the union mark were ordered out of the line and a number of the marshals and aides and those who had intended riding in carriages were forced to walk.

## RACE RIOT AT RAPIDAN.

Serious loss of life in a race riot was narrowly averted on a Southern Railway train at Rapidan Sunday night, when a crowd of unruly negroes attacked the conductor and stationmaster, several of them being wounded in the ensuing fight. The negroes insisted upon entering the car reserved for the use of white people, ignoring the "jim crow" law. The conductor remonstrated with them several times, and finally decided that it would be necessary to put them off the train. This he finally succeeded in doing, with the assistance of the train crew.

As soon as the negroes were put off the train they began throwing sticks and stones at the trainmen, in several instances striking and injuring white and colored passengers.

As the train moved off they attacked the station agent, who had hurried to the assistance of the conductor and his subordinates, and in the fight that followed one of the negroes was struck in the leg by a bullet. Several others were subdued by the use of baseball bats and clubs.

One of the rioting negroes rushed to a near-by house during the fracas and secured a shotgun, armed with which he resumed the attack on the whites, who had mustered quite a respectable force by this time. The negro was finally disarmed, as were also his companions.

Some of the negroes managed to make their escape. Several, however, were bound with cords and carried to Culpeper, where they will be given a hearing before the magistrate.

A Humane Appeal.

## RIOTING IN ODESSA.

The Black Hundreds began rioting in Odessa yesterday afternoon, alleging that the Jews were responsible for the explosion of the bomb in the courtyard of the central police station there Saturday morning, resulting in the deaths of an artillery officer and four policemen, although it was stated at the time that the bomb was accidentally discharged by the officer. The rioters ran through the streets inhabited by Jews, firing promiscuously right and left. At least five persons were killed and sixty wounded.

The mob indulged in other brutal excesses, and beat down many victims with flexible rubber sticks. The Jewish cemetery, where thousands of Jews were praying at the gravesides of their dead, was the scene of a fierce onslaught by members of the Black Hundreds, who shot down many of the mourners. A panic broke out in the cemetery, and many persons were injured in the wild rush to escape the vengeance of the organized mob.

Among the killed are a Jewish actor and a girl, aged fifteen, while the wounded include two little children, each about four years of age, and a man of seventy. A majority of the wounded refused to be taken to the hospital in ambulances. They feared that the Black Hundreds would invade the hospital and attack them there.

During this attack, which lasted for several hours, the police were impassive spectators and made no arrests. The Union of Russian People passed a resolution yesterday evening to annihilate, with the assistance of Cossacks, the members of the Jewish self-defense organization.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Dsarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM G. GWIN, Concord, Ga. For sale by Gibson & Timberman and W. F. Creighton & Co.

TUESDAY EVENING, SEPT. 3 1907.

NEW regulations respecting the manufacture and use of denatured alcohol, which went into effect Monday, are expected to so increase the output that the real birth of the industry as an important addition to the production of the country will really date from that time. Under the new conditions, any farmer or set of farmers or other individuals can establish a still for the production of alcohol to be denatured and can conduct it without interference from the government and almost without supervision. But so long as the business is honestly conducted, or conducted in such manner as to arouse no suspicion on the part of the revenue agents, there will be no governmental interference. Neither gaugers nor storekeepers nor any of the other members of the army of government employes who watch the manufacture of whisky will be employed to supervise the making of denatured alcohol. There will be no bonded warehouses nor other obstacles or embarrassments in the way of the agriculturists who wish to turn the refuse products of their farms into alcohol. Under the new regulations they will be as free to do this as they now are to make cider or vinegar. To help the development of the industry the Department of Agriculture has just issued two very important pamphlets, one showing the great variety of substances from which alcohol can be made and the other the wide range of uses to which it can be put. Not only is it a cheap method of heating and lightning, but its use as motor power can be made as general as that of gasoline or steam. Plows, reapers and other agricultural implements can be run with alcohol motors, while in light manufacturing and as motor power for small boats and automobiles it is believed that it can be used much more economically than gasoline.

JUDGE BALLINGER, Commissioner of the General Land Office, who has just returned from an extensive trip in the public land area of the West, says:

The acreage of coal lands already in private ownership is sufficient, if developed, to meet the requirements of a vastly increased population for many years to come, but it is not being developed in proportion to the increasing demand. Some people charge the government with being responsible for the coal shortage of last winter, but the actual cause of the shortage was the failure of the mine owners to anticipate the increased facilities. I am convinced that if the United States had parted with every acre of its vacant coal lands we would today be confronted with substantially the same problem of inadequacy of mine supply. Experience shows that as fast as it is attempted to open new mines they are controlled by the strong companies, who have sufficient capital to control the cars and the rates—and I speak somewhat from unfortunate personal experience and therefore with greater wisdom. The dormant or speculative holders of coal areas will contribute nothing to the general good. On the contrary, they make possible the enhancement of the price of fuel by limiting the supply. Under existing laws there can be no restriction imposed on the titles patented by the government to the coal lands. Hence there is nothing to prevent their falling into the hands of big speculators or big companies, and their uses as public necessities are greatly impaired.

This calls to mind a visit paid by a number of Alexandrians to some railroad officials in Washington a few years ago when the former urged the extension of one of the railroads centering in this city to the undeveloped coal mines in West Virginia. The Alexandrians were politely informed that there were plenty of coal mines in operation and that it was not the policy of the railroads to develop more at that time!

IT has transpired that Emperor William on Saturday, in the course of his visit to the Muenster Museum, made a most striking speech, which is regarded as being a direct appeal to the socialists to work together with the other classes of the population for the good of the Fatherland. The emperor said: I inherited from my grandfather a mission to care for the working people, and would like to see a conciliatory spirit extend all over the empire. During my long reign of 20 years I have often had to endure humiliations, inflicted intentionally or unintentionally by others. When I have felt anger overcoming me I have asked myself what was the best means of suppressing it. The only way I have found was of saying to myself they are all men, as I am, and although they humiliate me, they have souls illuminated by heaven, whither we shall all some day return, and in their souls there is a portion of the Creator. Whoever thinks thus will always judge his fellowmen charitably.

Socialism has for some time been a menace to the Kaiser. The words attributed to him above are all right, but they are likely to prove pearls but little appreciated by the class with which he has to contend.

THERE WERE some unfortunate incidents yesterday in connection with the observation of Labor Day in certain cities in the United States. There was a riot in San Francisco and two men were shot. The trouble was precipitated in by nonunion men in charge of a street car breaking the line of marchers in the parade of working men. The men in charge of the car claim that the marchers imagined they had the right of way to all streets in the city, while those in the line say there was no necessity for running the car in such a manner to split the ranks. Two young women saved the lives of two strikebreakers by throwing themselves on the prostrate bodies of the nonunion men during an attack by a mob of 50 men at Steubenville, O. All horses wearing nonunion shoes were ordered out of the Building Trades' parade in New York, forcing marshals and aides to walk.

THE "Rivista Italiana Odontojatria" of recent date contains an article by Professor Galli in which he says that modern dentistry is simply a revival of an old science. "A skull which was found in the Necropolis of the Etruscan city of Faleril," he says, "shows that dentistry was practised by the Etruscans." The skull shows on one of the jaws four gold pieces, two of which were used to cover natural teeth, and the other pieces served as false teeth, or, in other words, bridgework. "This shows that the Etruscans, like the Americans of today, did not object to show gold covered teeth. That all this should have lasted 2,300 years shows conclusively that the work was good. Dentistry has certainly made great progress, but the foundation was laid long ago and the modern American bridgework is without doubt a novelty which was known to the Etruscans four or six hundred years before Christ."

ALTHOUGH the growth of Oklahoma has not come up to the expectations of the more sanguine of its inhabitants, it has been almost without parallel. The population of the new State has nearly doubled since the last enumeration by the United States Census Office. In 1900 the Territory of Oklahoma and Indian Territory contained 790,000 inhabitants; according to the nearly-completed returns of the special census, the population at the present time approximates 1,500,000. The States of Oregon, Montana, Idaho, Wyoming, Utah and Nevada combined did not contain as many inhabitants in 1900. Still statehood is denied the people of Oklahoma for no other reason than that they would send democrats to represent them in Congress.

## From Washington.

[Correspondende of the Alexandria Gazette.]

Washington, Sept. 3.

Announcement was made today that a report of the Interstate Commerce Commission, would hold hearings on the Pacific coast this month of all complaints originating from that territory and now ready for presentation. Hearings will be held at Spokane, September 9; at Seattle, September 13; At Portland, Ore., September 16; at San Francisco, September 19 and at Los Angeles, September 26. Among the more important of these hearings is that on the complaint of the Railway Commission of Oregon against the Chicago and Alton, to be held at Portland. The cast involves the rates on denatured alcohol, should be carried at a cheaper rate than other alcohols.

Bids were opened at the Navy Department this afternoon for the construction of five torpedo boat destroyers, five firms contesting. The bids were complicated and varied widely, according to the various plans and styles of engines and machinery. On their face, in the opinion of navy officials, it would appear that the Fore River Shipbuilding Company will get contracts for two vessels, William Cramp & Sons, for one, or possibly two and the Bath Iron Works or Lewis Nixon possibly one. The vessels are to cost not exceeding $800,000 each.

Weather Bureau experts believe the earthquake shock registered yesterday had its center of disturbance in Japan. The records on the seismograph indicate a violent quake a trifle over 6,000 miles distant from here, and Prof. Marvin, who has charge of the instrument, fears that great destruction has been done. The result of his calculations does not harmonize with those of European experts, who say the shock was in Chili. Prof. Marvin says 6,000 miles from Washington in that direction would make the quake beyond Patagonia.

The Navy Department was advised today that the cruiser squadron consisting of the West Virginia, Pennsylvania, Maryland and Colorado, under command of Rear Admiral Dayton, arrived this morning at Honolulu from Japan, en route to the Pacific coast. The battleship squadron, under command of Rear Rear Admiral Evans, sailed today from Hampton to Cape Cod Bay.

Andrew Contee, a Washington negro, was shot and instantly killed while resisting an officer in front of Ryan's saloon, at the corner of New Jersey avenue and F street northwest, yesterday. A moment later there was a revolver shot, and she was found unconscious in her room. She was hurried to Pittsburg where it was said at the hospital that she cannot recover. The only reason that can be assigned for the act is that she did not want to go to school.

After killing the man, the wife returned to the house, secured a mule and went back to the spot where her husband's body lay dead in a pool of his own blood. ## Today's Telegraphic News.

### China and Japan.

Tokio, Sept. 3.—An absolute break between China and Japan in the near future is feared by Japanese public thinkers as a consequence of the animosity the Chinese government is manifesting toward her island neighbors. China is believed to be on the point of an anti-Japanese crusade, and the greatest indignation is manifested here at her change of front.

The conflicing claims of China and Japan to Khoto, or the Middle Island as it is known, are in part responsible for the ill feeling between the nations. Japan has taken possession under the claim of Corea to the disputed territory. News that China has dispatched a force to seize the land has caused great consternation here, as it is feared actual fighting may follow.

The Chinese are also reported to be excited because of the barring of Chinese coolies from parts of Japan. A party of fifty Coolies was turned back from Kobe. Chinese are inclined to resent this. They say Japan ought not to exclude any Chinese from her territory in view of the agitation she has indulged in against the exclusion of Japanese coolies from the United States.

Japanese statesmen believe that if the peace of the far East is to be maintained, China must be brought to see the unreasonableness of her present stand. It is probable a leading Japanese statesman will be sent to represent Japan in China. Count Okuma is suggested for the position.

Dispatches from Yokohoma indicate that Japan is much excited over the news that Viceroy Hui, of Manchuria, has sent Chinese soldiers to dispute with the Mikado the title to the territory. Though Korea long claimed sovereignty over the region, the general opinion here is that China had the better title. The Chinese made no objection, however, to the presence of Koreans as well as Chinese troops in the disputed tract before the Russo-Japanese war. It agreed with Korea that it would be better to leave the territory to govern itself when the war broke out, and both countries withdrew their officials.

Viceroy Hui seems only recently to have learned that since Japan's virtual annexation of Korea, Marquis Ito has sent Col. Salto and a small force of Japanese troops to assume the administration.

With Japanese soldiers already in the disputed territory and Chinese troops on their way, the chances for a clash are believed imminent.

The Middle Island population is estimated at about 600,000 Koreans and 400,000 Chinese. The territory is rich agriculturally and is said to have vast mineral resources.

### The War on Jews.

Odessa, Russia, Sept. 3.—The pogrom inaugurated yesterday by Black Hundreds in slaying and wounding scores of defenceless Jews is in full progress again today. Hebrews are being hunted down everywhere. Shots are heard continually and, undeterred by the police, who have given the jewbaiters free reign, the massacre is proceeding unchecked.

Almost with the return of daylight the attack was resumed. Small bands of desperadoes began the assault. In one or two instances resistance was offered by Jews congregated in the houses attacked. A shot or two was fired from one house, and this was the signal for hordes of the Black Hundreds to rush to the attack.

Mobs marched through the streets firing at random through the windows and doors. Any Jewish face at a window immediately became a target.

A reign of terror prevails. Jews who can slip out of their homes unobserved are fleeing to the country. Hundreds are reported to have left over night. Wild rumors are in circulation that soldiers are to be loosed to complete the work of decimating Jews.

In yesterday's assault on helpless Jews while they were praying over the ir dead in the Jewish cemetery fully one hundred persons were killed or hurt. Probably as many more casualties occured in the Ghetto. No estimates are given on today's casualties, but it is believed that unless the Black Hundreds are checked soon wholesale slaughter will result.

### Storm in Pittsburg.

Pittsburg, Sept. 3.—Pittsburg was visited by a cloudburst and severe electrical storm yesterday afternoon which created panics in half a dozen different places. The storm came up so suddenly that no one was prepared. At Brunot's Island, where the Tri-State Fair is in progress, almost one hundred thousand persons were caught in a terrific downpour. Two feet of water covered the racetrack after the rain subsided. During the storm lightning struck the Auditorium Theatre and the Sharpsburg Telephone Exchange. Twelve girls were thrown into a panic at the exchange, refusing to re-enter the building. The home of M. D. Ritchie, on Pembroke Place, was struck and a maid seriously hurt.

### Yacht Races at Jamestown.

Jamestown Exposition, Va., Sept. 3.—Beginning on Wednesday, September 11, and continuing nearly two weeks, there will be in rendezvous in Hampton Roads, in front of the Jamestown Tercentennial, the greatest aggregation of pleasure craft ever seen at one time in one port. These vessels will represent the pick of the vast fleet of American yachts and the leading yacht clubs of this and other nations. Four beautifully designed cups given respectively by President Roosevelt, King Edward VII, Sir Thomas Lipton and the Exposition Company will be the principal prizes of the handsome collection to be raced for.

### Family Burned to Death?

New York, Sept. 3.—Searchers are still ransacking the ruins of an old three story frame house at One hundred and seventieth street and College Avenue, burned yesterday, for the bodies of an Italian family. While the quartette may not have perished in the fire, nothing can be found of any of the members of the family, and the firemen think there is little doubt that all were burned.

### Mysterious Murder.

New York, Sept. 3.—With the head and face bruised and slashed as if from the free use of a club and a knife, the body of a man was taken from the river at the foot of east Fulton street today. The man was of middle age and there was nothing about his plain clothes to indicate his identity.

### The Market.

Georgetown, Sep. 3.—Wheat 72a78.

### Japanese Seize Island.

Manila, Sept. 2.—American residents of the Philippines are much perturbed over the Midado's seizure of Pratas Island, close to the Philippine islands. Officials are silent concerning the incident, but men unconnected with the civil and military branches of the insular government openly express the fear that the step is but the first of a contemplated series of aggresive movements against the United States' colonial interest in the Orient. Americans generally agree that the island is a part of the Philippine group, and that the Japanese claim that it does not belong to the Archipelago because north of the twentieth parallel is a mere pretext. Hopes are still expressed that the Mikado's government will repudiate the seizure, which was not by accredited representatives of the government, but by an exploring party from Formosa. Though the island is small and uninhabited, it is believed here to be of value from a naval standpoint.

Washington, Sept. 3.—Closest scrutiny of all the official maps in the possession of the Insular Bureau fails to disclose the existence of any island belonging to the Philippines under the name of Protus or Pratas. According to the treaty with Spain, the northern boundary line runs "along or near the 20th parallel through the middle of the navigable channel of Baschi." The island name does not appear below that line.

### The Telegraphers' Strike.

New York, Sept. 3.—Chief Strategist Dan Russell of the Telegraphers' Union proposes to make the railroads' demand for operators a weapon against the Western Union and Postal companies. He announced today his plan to obtain positions for the strikers with the railroads, which, he says, are greatly in need of men. The result would be that when the strike ends there would be no men to go back to the telegraph companies.

This plan did not frighten the managers of the two companies here today, who said they had stopped talking about the strike, "it was over so long ago."

Advices were received here today saying the striking Postal employes at Houston, Tex., had applied for reinstatement as individuals. It was announced that the Postal officials were considering the request.

President Small of the Telegraphers' Union returned here today, but refused to make any statement about his mysterious trip and would say nothing about the strike, except that "something will be doing soon."

### Mansfield's Grave Guarded.

New London, Conn., Sept. 3 —When the funeral of Richard Mansfield was over yesterday a watchman was placed at the grave and remained there last night at the request of Mrs. Mansfield. No reason is given for the action, but it is understood that the grave will be watched for some time at the request of Mrs. Mansfield. It was announced today that Mrs. Mansfield would make a trip to New York on Thursday next with her business adviser, Paul Wilstach. Mr. Wilstach said that he did not know yet whether Mr. Mansfield left a will or not but if there is one, as it is believed there is, it will probably be made public during the trip to New York.

### Shot by Detective.

New York, Sept. 3.—The occupants of a crowded trolley car and hundreds of women and children in the street were thrown into a panic in Second avenue today, when a trio of detectives, in a running fight shot down and probably fatally injured one of a band of three blackmailers.

The map, Paulo Pastellano, jumped through one of the windows of the car in his effort to get away, and when the police began to fire at him the dwellers in the neighborhood knocked down and trampled each other in their attempts to reach places of safety.

### A BOY'S TERRIBLE PLIGHT.

While 10,000 persons at the Labor Day celebration at Fort Wayne, Ind., yesterday evening were watching Miss Mabel Davenport make a balloon ascension. William Roeffing, a twelve-year-old boy, got caught in a guy rope and was carried seventy feet above the ground. The rope swung him into the branch of a towering trees, and he clutched a slender branch, getting clear of the rope. He mustered strength to wrap his legs about the branch, where he swung head downward until four men climbed the tree and threw a rope noose around his body. He did not have strength enough to let go the branch and grab the rope. The dangling noose caught him about the waist and he fell twenty feet with the rope about him. The rope caught on a strong limb and Roeffing was lowered until he reached the ground.

### BOY KILLED.

Ernest L Crabbs, fourteen years old, of Washington, was killed instantly yesterday morning near Marshall Hall by the accidental discharge of a shotgun. The boy, accompanied by Harry Crabbs, his father, left Washington Sunday night to spend Labor Day in Maryland gunning. Shortly after 8 o'clock, it is said, the father and the son came to the home of Mrs. Ryanfelt, a short distance from Marshall Hall, and paused at the spring before going into the farmhouse for breakfast. A double-barreled shotgun, which was carried by them, was placed against a tree stump near which the boy was standing, with one of his feet on a chair, almost directly in front of the gun. In some way the weapon slipped and, falling, struck the hammers against the stump, discharging both barrels. The entire contents lodged in the unfortunate boy's abdomen. There was no physician near at hand and the boy's father carried the bleeding form of his child into the farmhouse and a physician was obtained. The boy died almost instantly, the lower part of his abdomen having been literally riddled with shot. The dead boy was placed upon the steamer Charles Macalester and taken to Washington yesterday.

### FIGHT NEAR LUNA PARK.

A fight occurred about 10:30 o'clock last night near the front entrance of Luna Park, and as a result of the affray one man was taken in custody by Deputy Sheriff Howard W. Field and taken before Justice Dolbert. After the accused had left $10 collateral he was released from custody. It is said that some one besides the man taken in custody became engaged in an altercation with an employe of the park, and the crowd surged around the men after which several young men who were patrons of the park began to "guy" one of the park's special officers. In the meantime, it is alleged, the man who started the trouble succeeded in eluding capture. It is also asserted that one of the men employed as a special policeman at the park threw a brick at some one and that it landed in a car filled with passengers. The affair, which was of short duration, caused considerable excitement.

### SOLDIERS DISMISSED.

Seven soldiers and a resident of this city were charged in the Police Court this morning with disorderly conduct on north Lee street. Chief Goods testified that he received a telephone message about 8 o'clock yesterday evening to the effect that there was trouble on Lee street and that he and Lieutenant Bettis proceeded to that vicinity and took the men in custody. Some of the soldiers, he said, had bricks in their hands. It was also testified that one of the soldiers has threatened to kill an Alexandrian, who happened to be in that vicinity. An officer from Fort Hunt, where the soldiers are stationed, appeared in court, and after a consultation with Justice Caton the justice turned the soldiers over to the officer and, it was announced, that when they reached the fort they will be punished for their offense.

### THE LATE CLAY THOMPSON.

As was stated in the Gazette, Mr. Clay Thompson, a native of this city, but who had resided in Washington during the past twenty years, died in that city yesterday afternoon. The deceased had been a sufferer from organic disease for a long time. He was in his 52d year. For fifteen years the deceased was a salesman and bookkeeper in the shoe store of Fred Paff, in this city. He is survived by his wife, Mrs. A. B. Thompson and a son, Frederick Thompson. The funeral services will take place at 2 o'clock Thursday from his home after which the remains will be brought to Alexandria for interment. The deceased was a brother of Messrs. L. H. and E. F. Thompson, and of Mrs. C. W. Moore, Mrs. George Heisley, Mrs. George Hoffman and Miss M. Thompson.

Wedderburn, who is an aspirant for Mr. Machen's seat, will have joint debates at Greenwich, Prince William county, tonight; Manassas tomorrow night, in the Opera House in this city Friday night, at Fairfax Saturday night, and at the Alexandria County Courthouse Monday night, when the campaign will close. They attended the tenth annual gathering of their order, held in Georgetown yesterday afternoon. The boat returned to Norfolk last night. The Montauk will return in a few days to begin on a day route between Washington and the Jamestown Exposition.

### WILL BE REAPPOINTED.

Mayor Mahool of Baltimore, it is said, will not make many changes among the heads of departments of that city. There seems to be little doubt but that City Engineer Fendall, against whom there has been a hard fight in certain quarters, will be reappointed. It is not thought that there will be enough opposition to Mr. Fendall to defeat him. His splendid record, especially on the board of estimates, is going to carry him through, and letters in his behalf are still pouring in on the Mayor.

### THE GENTRY BROS.' SHOWS.

The Gentry Brothers' Shows which will be in Alexandria on the 9th inst. have one of the most novel parades in the country. It has been augmented by the addition of over twenty new tableau wagons and cages.

### FINED FOR ASSAULT.

The case of Milford Self, charged with assaulting Harry Simpson, was heard today before Justice Triplett in Fairfax county, and after the examination of a large number of witnesses the accused was fined $5 and costs. Attorney John M Johnson represented Simpson and the accused was represented by Attorney Samuel G. Brent.

The assault occurred in Fairfax county Sunday, August 18, at a watering trough about two miles south of this city. As a result of the fracas Simpson was hit over the head with a stone by Self and one of his eyes was seriously injured.

With his left eye obscured with bandages, George Twyman, colored, appeared as complainant against Joseph Adams, also colored, in the Police Court this morning. Twyman charged that he was assaulted by Adams last Friday night in the southwestern section of the city. Adams told the court that he had been attacked by Twyman earlier in the evening. Adams was fined $20. He has been before the Police Court several times in past years, and finished a term on the chain gang a few days ago.

E Lee Camp, Confederate Veterans, held at their hall last night in addition to the routine business transacted a communication was read from the grand commander announcing the appointment of Captain Carter R. Bishop, of A. P. Hill Camp, C. V., of Petersburg, as inspector general of the Grand Camp, Department of Virginia, to fill the vacancy occasioned by the death of Comrade Captain T. C. Morton. The following were elected delegates to attend the meeting of the Grand Camp to be held at Norfolk, October 16, 17 and 18: W. W. Sherwood, James W. Hammond, John Hooff and F. J. ### ALEXANDRIA TEAM WINS.

The Alexandria Athletic Association baseball team won a double-header from the Belmont Athletic Association, of Baltimore on the fair grounds yesterday. The score in the first game was 7 to 0 and in the second 9 to 4. In the first game the battery for Alexandria was Donaldson and Lucas, and the first named struck out fifteen men. Donaldson also made two home runs, Benzette one, and Clements one. The battery for Alexandria in the second game of the day was Wilkerson and Lucas, and Wilkerson struck out eleven men.

Next Saturday afternoon at 4:45, the Alexandria nine will meet the Patterson Outing Club, of Baltimore, on the Alexandria grounds.

### STILL AGROUND.

The steamboat Calvert, of the Maryland, Delaware and Virginia Railroad Company's service, which, on her last trip of the season from Baltimore to Washington, recently became stranded on a bar in Coan river, near the mouth of the Potomac, is still aground. It is stated that unless a very high tide comes it may be necessary to dredge to get her off, as, when last seen, she did not have enough water under her to keep her on even keel. The Calvert's passengers and freight were taken off by the Northumberland, which arrived here early Sunday morning.

### BOARD OF PHARMACY.

Among the appointees by Governor Swanson on the State board of pharmacy is Dr. George T. Mankin, of Herndon. The board is now engaged in enforcing the laws regarding the sale and labeling of poisons. The law requiring druggists to employ only licensed clerks to fill prescriptions is also receiving the attention of the board. More than fifty merchants and druggists have been convicted recently of violating these laws.

## DISORDER IN ANTWERP.

The lockout of the dock laborers in Antwerp yesterday caused the porters and others to strike in sympathy and resort to violence. The rioters broke into the grain storehouses, smashed the tools, carried off wagons and showered stones on the English strikebreakers on the steamers, forcing them to quit work. They also routed other strikebreakers, threw a steam crane overboard and wrecked a lot of machinery. A German sailor who was mistaken for an English strikebreaker was attacked by the rioters and almost killed. The women employees of the dock and steamship companies have joined the strike movement and excitedly harranged the men at a big meeting of strikers held yesterday afternoon. The disturbances continued throughout the evening. The strikers lay in wait at the railroad station and made attempts to interfere with the English and German strikebreakers as they arrived. There were several sharp tussels between strikers and workmen who were returning to their lodgings under police escort, in which revolvers were used freely. The strikers captured an omnibus used to convey strikebreakers to and from the wharves and threw it overboard from a dock.

### Health in the Canal Zone.

The high wages paid makes it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, billiousness, weakness and all stomach, liver and kidney troubles. Guaranteed at E. S. Leadbeater & Son's drug store. 50c.

## TWO GIRLS ATTACKED.

While helping his brother to defend their sister and a girl friend from the attack of two men, Jacob Bernstein, of Brooklyn, was slashed with a knife in the hands of one of the assailants yesterday. His right cheek was laid open, and lacerations were inflicted upon his neck. The objective of the assailant was Bernstein's jugular vein. Bernstein protected himself as well as he could and was saved from a fatal wound. Saran Rubin and Sadie Bernstein had been taken for a drive by the brothers of the latter, Henry and Jacob Bernstein, and upon returning drove to a stable. While the horses were unharnessed two strangers came through the half-opened door and attacked the girls. The Bernsteins came to the rescue and were getting the best of the fighting, when one of the strangers drew a knife and tried to cut Jacob's throat. The girl's scream brought a policeman to the scene after the fighting had been going on for some minutes.

### Eczema.

## RETURNED TO HER FATHER.

Etta Tavener, sixteen years old, the daughter of W. B. Tavener, of Round Hill, Va., was arrested at the home of S. H. Yeatman, an employee in an attorney's office in Washington yesterday upon the charge of being a fugitive from her parents and later officers surrendered the girl to her father, who took her back to her home. The police say that the Tavener girl became acquainted with Mr. Yeatman at Round Hill, where he was spending his vacation with his wife and child. The Tavener girl took a great fancy to Mr. Yeatman's child, and the man and his wife told her that if she ever found herself in Washington that he would give her employment. The girl made her appearance at the Yeatmen home Sunday morning, and, Mr. Yeatmen says, told him her father knew of her intentions to stay in the city. He was greatly astonished, but gave her employment.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc.

A weak Stomach, causing dispepsia, a weak Heart with palpitation of intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop, of Racine, Wis., will mail sample free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by E. S. Leadbeater & Sons.

## CANDIDATES.

**Senator Machen Asks Renomination.**

To the Democrats of the Fourteenth Senatorial District:

I hereby announce that I shall seek a renomination as State Senator at the democratic primary September 10th.

For many years it has been the custom in this district to return a Senator for a second term if he so desired, and I trust that a careful scrutiny of my official record will not disclose any reason for violating this custom at this time.

Having been a resident of Alexandria for more than 5 years, and having been for a much longer period associated in business and otherwise with the people of the city, it is natural to suppose that I understand its needs and could serve its interests in the legislature as well as some one who is not a resident and has had no legislative experience. I solicit the generous support of my home city.

Respectfully,
aug16 td LEWIS H. MACHEN.

TO THE VOTERS OF THE 14TH SENATORIAL DISTRICT. I respectfully announce myself a candidate for State Senate in the democratic primary September 10th, 1907. ALEX. J. WEDDERBURN.

**FOR STATE SENATE.**

To the Democratic voters of the 14th Senatorial district:

I hereby announce myself a candidate for Senator from the 14th Senatorial District of Virginia, subject to the democratic primary to be held on September 10, 1907, and if nominated and elected, I pledge myself to the service of the best interests of the district and State. Very Respectfully,

R. E. THORNTON.
